Friendly dashboard view | Instant school notices | Personalised content

frogeducation.com/academy

Save instantly on annual printing costs with a digital planner. Ready to create in **FrogLearn**, administrators, teachers and students will all benefit from a personalised space with relevant information for the year ahead.

£4,000 SAVING*
PER ANNUM

*Based on an average secondary school spending over £4,000 on printed planners. Administration time has not been calculated but is likely to increase the overall saving experienced.

ADMINISTRATORS

Prepare and upload information for the academic year without print deadlines and easily amend as needed. Use the keyword features to create personalised tutor group lists for teachers. Connect students and parents creating direct links from their dashboards to their planners.

STUDENTS

Forms part of the student dashboard with planner information readily available and always up-to-date. No need to maintain and carry hardcopies. Changes to timetables and school notices reflected instantly. Never leave a planner at home again!

PARENTS

Clear parental view of the school planner with access to relevant school activities for their child(ren). Policy documents can be viewed and approved without lengthy paper processes. Have visibility of homework set.
