# Digital Planners

FROM **FROG**

---

## Story

Over the past couple of years, we've received various requests to capture individual students' achievements and introduce a smarter way to communicate with parents whilst saving money on both! So as a result, we built the ePortfolio system.

## Impact

We've already saved schools £3-4k on average per year and we're in the process of running reports that will show reduced errors by populating planners with homework tasks!
